are these guys trying too

Heaps of hair gel, super-styled outfits and sun-kissed skin — these over-primped hunks are overdoing it!

too MIAMI VICE!

All white isn't all right with fashion expert Danna Weiss, who describes Adrien Brody's look as "a cross between Miami Vice and a nurse." Her remedy: Trade the tee for a button-down shirt.

too COORDINATED!

Clothes-minded rocker Jon Bon Jovi looks "too matchy-matchy" in this mustard-yellow outfit, says Weiss, adding, "When you wear a long, sloppy shirt, your legs look stocky."

too TAN!

Matthew Perry's sun-seared skin has Weiss seeing red. "He looks a little crispy. There is such a thing as too much color," she notes, adding that Matt should "spend a little more time indoors — watching Friends reruns!"

too MANY HIGHLIGHTS!

Something's not quite right with Nick Carter's streaks. "This isn't natural," says Weiss. "Real hair has lots of different tones." Still, Weiss calls Nick's brows the real eyesore: "They're totally tweezed!"

hard?

too SLICK!

Was **Jude Law** batty when he chose this daring 'do? "He looks a bit like Dracula," notes fashion expert Weiss. "He just needs fangs!" She suggests the British babe cut the grease and let his hair fall naturally.

too PREPPY!

"No truly preppy person would ever do this," Weiss says of colorful **Carson Kressley**. For the perfect polo match, he should lose the rainbow jacket and just wear the blue sweater.

the winner!

too MUCH EVERYTHING!

"He looks like he's at a costume party," Weiss says of **Edny Kravitz's** overdone ensemble and "retro woman's hairdo." Jeans and fewer accessories would make this look less over-the-top. And the bag? "It's just wrong!" she explains.
