Naomi and Nicole: double vision

Best buds Nicole Kidman and Naomi Watts have battled for roles, but now they're battling for fashion supremacy — in the same dress! It's hard to believe that, with her rumored \$15-million-dollar paycheck for the upcoming *King Kong* remake, Naomi would accept a hand-me-down. Nic wore it first, but fashion expert Danna Weiss thinks the star's coloring isn't flattered by this shade of yellow. Naomi's golden hair and porcelain skin work better — and make her the fashion victor here.
